### **DETAILED ACTION**

Applicants' preliminary amendment filed July 7, 2004 has been received and entered.

Due to the complex nature of the claims, no request for an oral election is being made. Please see MPEP 812.01.

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 19, 21-27, 35-38, 40, 42, 44, 45, 47, 49, 51, 55, 57, 59-62, 66, 67, 70, 72, 74, 76, 78 and 80 are drawn to a cosmetic or dermatological composition comprising one or more fatty acids, one or more fatty alcohols, at least one of an amphiphilic polymer, at least one of sodium hydroxide and potassium hydroxide, one or more polyethoxylated fatty acid esters, and at least one of a pigment and a dyes, classified in class 424, subclass 63.
- II. Claims 20, 28-34, 39, 41, 43, 48, 50, 52, 56, 58, 63-65, 68, 69, 71, 73, 75, 77, 79 and 81 are drawn to a cosmetic or dermatological composition comprising one or more fatty acids, one or more fatty alcohols, at least one of an amphiphilic polymer, at least one of sodium hydroxide and potassium hydroxide, one or more polyethoxylated fatty acid esters, and at least one of a pigment and a dyes, classified in class 424, subclass 63.
- III. Claims 53 and 54 are drawn to a composition comprising at least one of stearic acid and palmitic acid, at least one of cetyl alcohol, behenyl

alcohol, stearyl alcohol and cetearyl alcohol, at least one of dimethicone/vinyl dimethicone crosspolymer, etc., sodium hydroxide, at least one of PEG-20 stearate, etc., at least one of steareth-2, laureth-4 and ceteth-3, and at least one of a pigment and a dye, classified in class 424, subclass 63.

The three inventions are independent and distinct, each from the other as they have acquired a separate status in the art as shown by their different and separate subject matter for inventive effort. Further, a reference, which anticipates any one of the above inventions, would neither anticipate nor make obvious of the other inventions. Each such invention is capable of supporting its own patent. For these reasons, the restriction requirement is proper.

To be complete, applicants' response must include a provisional election even though the requirement may be traverse.

The applicants are required to elect a single invention for examination purposes.
